È ottenuto direttamente dal tronco dell'albero mediante lavorazioni meccaniche. Le particolarità estetiche e di venatura sono caratteristiche dell'essenza legnosa utilizzata. Il legno massello viene finito nelle tonalità tipiche delle varie essenze con una lavorazione di verniciatura (la finitura).

Art. 996 Lockers

I lockers sono armadi destinati al contenimento di documenti o di oggetti personali sul posto di lavoro. L'apertura dell'anta può avvenire tramite una speciale serratura elettronica, per mezzo di tessera magnetica. Differenti segnali luminosi indicano se il vano è libero o occupato. Le ante sono personalizzabili in termini di finiture, e possono essere dotate di targhette identificative.

Les casiers sont des placards conçus pour contenir des documents ou des effets personnels sur le lieu de travail. La porte peut être ouverte à l'aide d'une serrure électronique spéciale, au moyen d'une carte magnétique. Différents signaux lumineux indiquent si le compartiment est libre ou occupé. Les portes sont personnalisables en termes de finitions et peuvent être équipées de plaques d'identification.

Lockers are closets designed to contain documents or personal belongings in the workplace. The door can be opened using a special electronic lock, with a magnetic card. Different light signals indicate if the compartment is free or not. The doors are customizable in terms of finishes, and can be equipped with identification plates.

IL FASCINO DEL VERO TEAK ORIGINALE INDONESIA... PREGIATO ED ETERNO

Note: il teak è un'essenza tropicale giungendo in Europa con clima diverso tende a seccarsi, potrebbero comparire in superficie tracce bianche di resina secca. Per ravvivare e conservare l'immagine unica di questa essenza, basta trattarla con l'apposito olio per dare e conservare freschezza, lucentezza e protezione. Consigliabile inizio e fine stagione.

ORIGINAL INDONESIAN TEAK / TEAK INDONESIEN ORIGINAL

S'il n'est pas traité, le teak grisaille naturellement. L'application de lasures est possible à partir de toutes les marques courantes pour autant que le bois soit dégraissé au préalable. Une huile spéciale pour teak prévient la décoloration grisâtre et confère une certaine brillance au bois.

Despite its natural oils, Teak wood usually glues and finishes well, though in some instances it may be necessary to wipe the surface of the wood with a solvent prior to gluing/finishing to reduce the natural oils on the surface of the wood.
